Tisca

Product Catalog

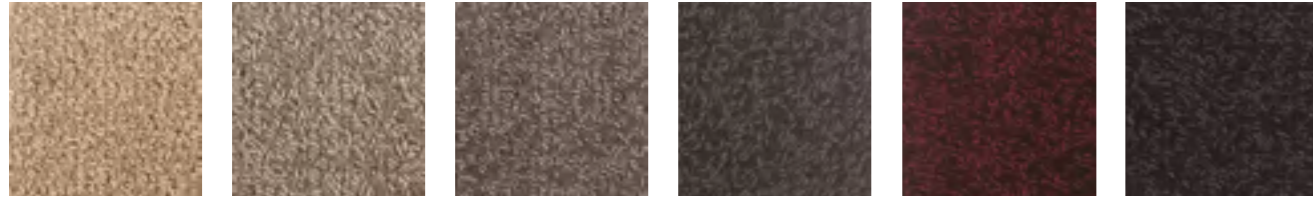

Broadloom - Area Rugs - Runners - Carpet Tile

As a full-service provider of high quality textiles for indoors and outdoors, Tisca produces textile floor coverings, as well as sports turfs. Tisca caters to the residential, contract and transport markets. Quality, reliability and sustainability are fundamental commitments. Tisca began in 1940 as a tiny business operation has grown to a globally active company group which is still an independent, family-run company.

LSI Flooring is Tisca's Agent for the U.S. & Canadian markets. LSI is a leading sales & marketing agency representing quality commercial, hospitality and residential flooring products from around the world. LSI has been in business since 2002, with a mission to be a go-to source for wholesale flooring products. LSI is also family-owned & operated, headquartered in Manhattan, New York and has a Sales Office in Fort Lauderdale, Florida.

hasel 42

Boucletta 660 / SL 661

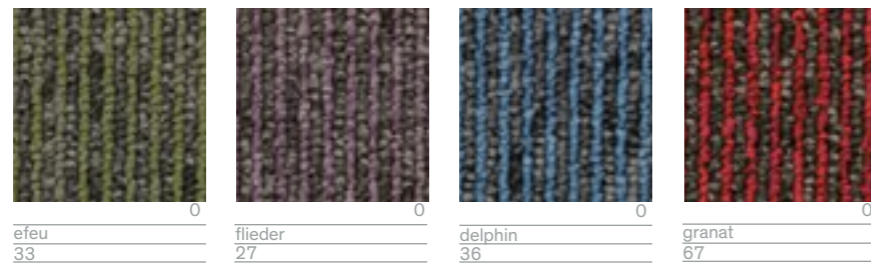

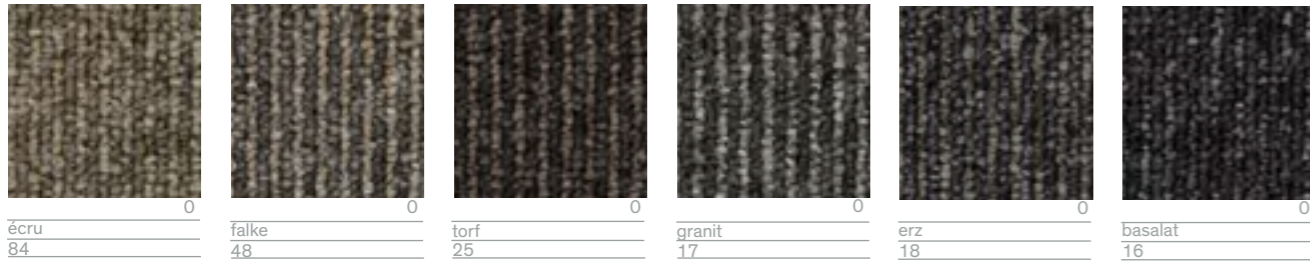

One of our strongest performers when it comes to furnishing public buildings: robust, durable, timeless, and elegant.

Tiara Boucletta is available in two versions:
 Boucletta 660 = rolls and cuts, width approx. 420 cm (13'9")
 Boucletta SL 661 = carpet tiles, 50 x 50 cm (19½" x 19½")
 availability:
 0 = rolls in stock
 □ = tiles in stock

Width/Size:	13'9" / 19½" x 19½"
Roll Size:	82 Ft / or Cuts
Style:	Loop Pile
Pile Weight:	22 oz.
Total Weight:	59 oz.
Total Thickness:	approx. 7/32"
Use:	Commercial, Residential
Pile Material:	100% regenerated polyamide, Econyl
Construction:	tufting

Boucletta Strie 667 / SL 668

Tiara Boucletta Strié has all the strengths of the Boucletta family: a dense loop pile carpet, extraordinarily hard wearing, durable, timeless and elegant – all at the same time.

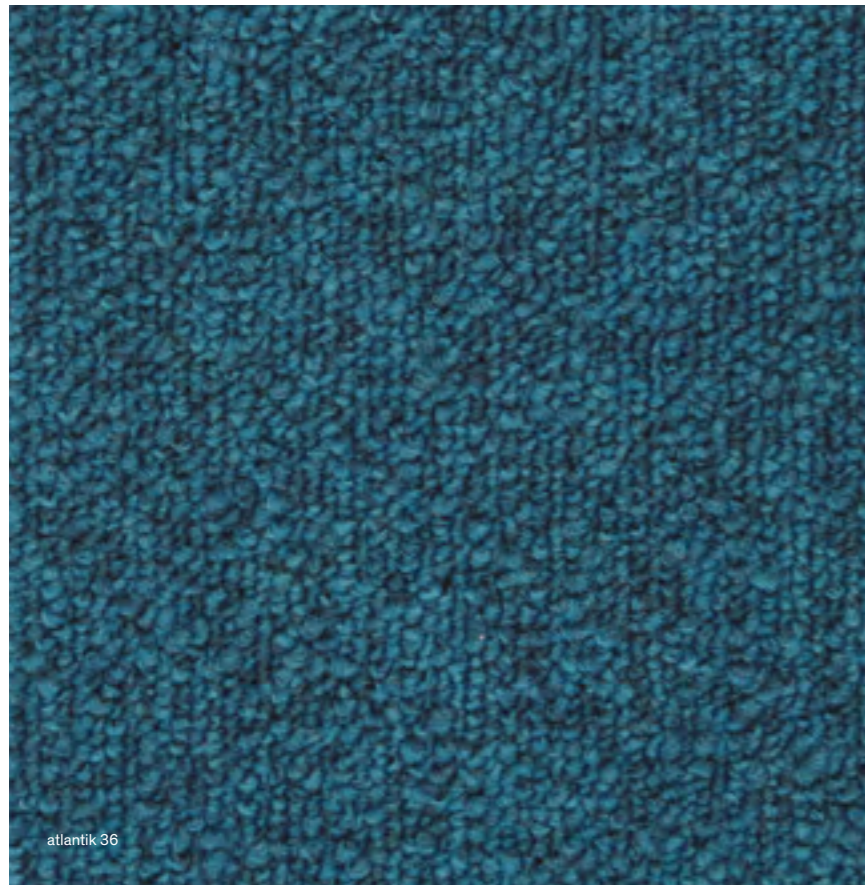

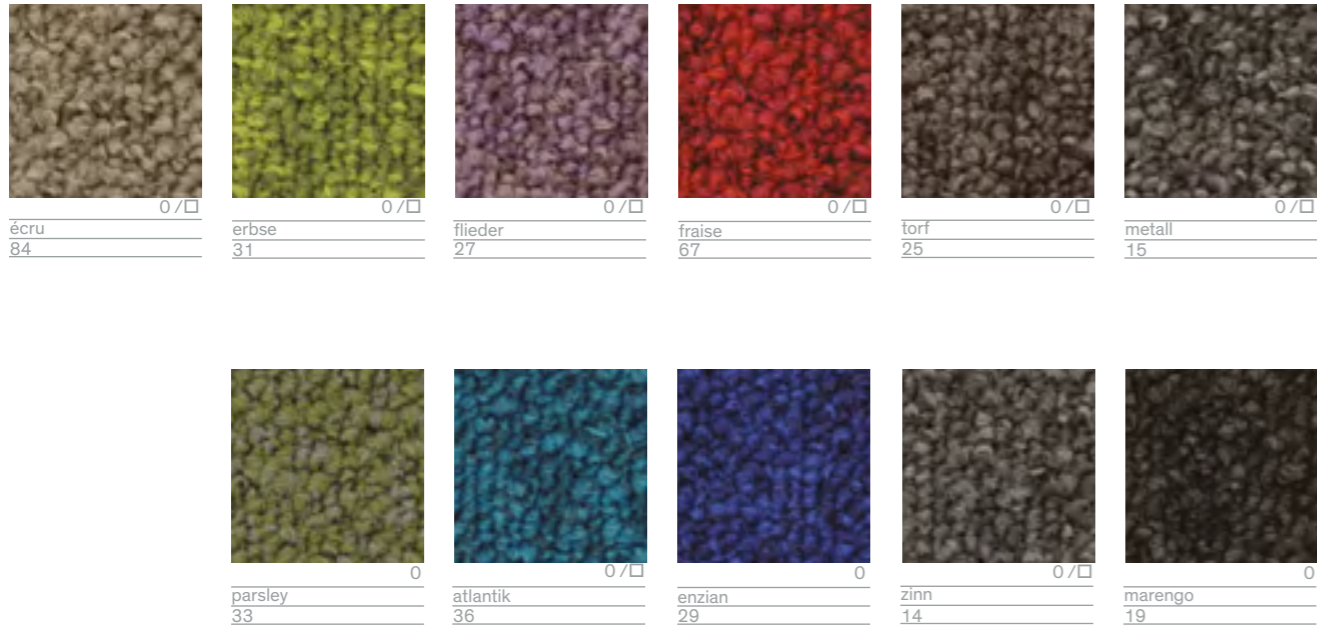

Tiara Boucletta Strie is available in two versions:
 Boucletta Strie 667 = rolls and cuts, width approx. 420 cm (13'9")
 Boucletta Strie SL 668 = carpet tiles, 50 x 50 cm (19½" x 19½")

Tisca Country is a woven carpet with loop pile. Made from 100% pure new wool (Wools Of New Zealand), Tisca Country sets an example in ecological terms and is a reflection of naturally renewable materials. Nine stock colors allow subtle color evaluation tailored to the circumstances of the space. Suitable for use with rolling chairs and floor heating as well as for stairs in living areas, this woven classic offers flexibility of use.

Tisca Pave is a carpet that provides a sense of well-being.

The geometric tuft structure and subtle tricolor lend themselves to the distinctive character of this highquality carpet. The tuft support technology enables a luxurious pile height that not only radiates visual appeal but also manifests itself noticeably underfoot.

Touch this carpet and you will be delighted by the luxurious feel and natural elegance. The beauty of pure nature needs no further frills.

Construction:	tufting

Siena 201

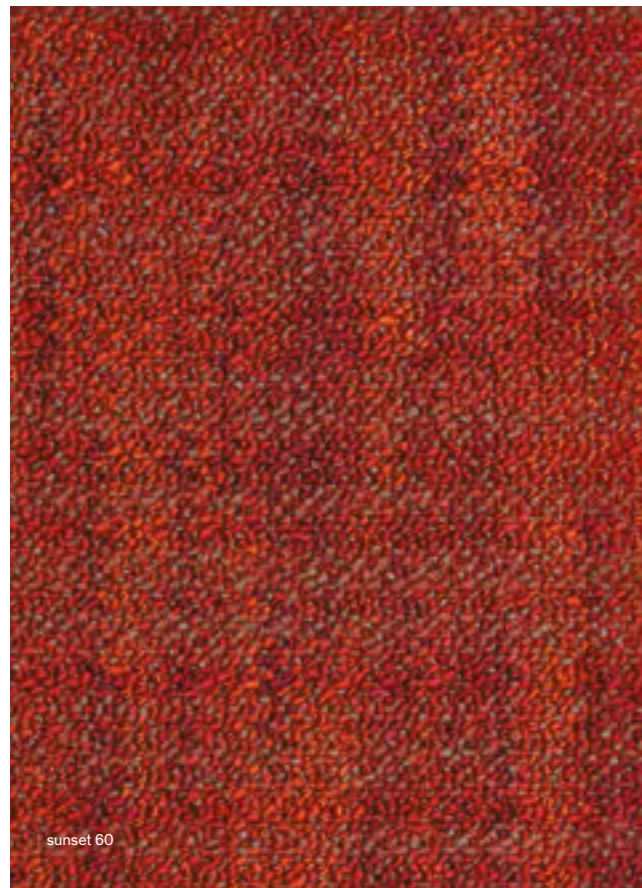

The highly structured, linear surface is characteristic of Tisca Siena. This gives the mottled looped fabric a very distinctive, high-value look. Due to the incomparable surface structure and very discreet mottling, Tisca Siena lends itself to expressive interior design. In an exciting way, Tisca Siena combines straight lines with natural softness. The connoisseur immediately recognizes the high quality of the product, which is the result of natural raw material and high-quality manufacturing in the weaving mill. The compact feel and the exciting structure are an expression of the philosophy of the company. Authentic, restrained, and equally expressive. Designed for honesty and sustainability.

------------------	--------------------	--------------------	---------------	---------------	----------------

dunkelbraun 9713

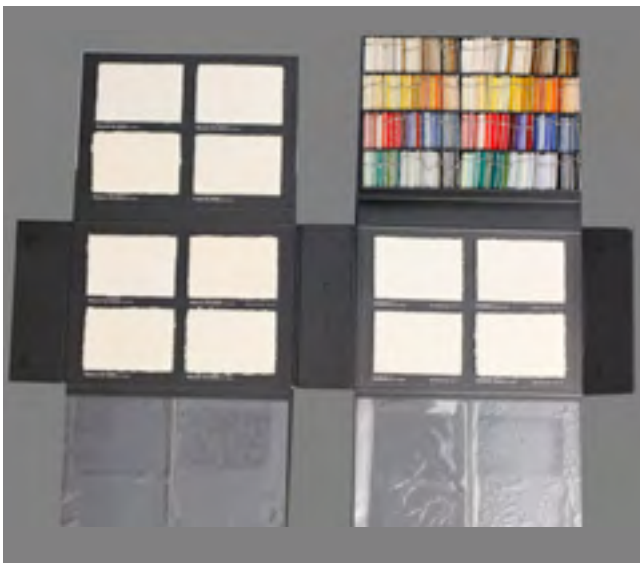

When we first introduced the Wollbrüssel quality grade in 1963 in a limited range of colors, no one could have guessed that it would become a true classic. In times when it seems commendable to think only within the dimensions of big business, commitments to firstclass quality and classic manufacturing processes may seem a little strange. We don't think so, and Tisca Wollbrüssel is the proof.

Waron Modellana Selector Kit

Made to order Cut or Loop Pile Carpets

Waron/Modellana are tailor-made carpets which are made to order, made to size. Since they are manufactured to size waste is avoided – a positive effect for the environment and your budget. What's more, tailor-made carpets from Tisca are produced up to a maximum seamless width of 44'3" all in one piece depending on the quality. This eliminates seams and potential weak points.

Since every color can be realised precisely to your wishes, you can be sure of a perfect color match between your carpet and the existing decor or new interior design. WARON carpets are stitched on machines that are unique in the world. MODELLANA carpets are produced on special pass tufting machines. All use the finest 100% New Zealand Wool.

Waron

WARON stands for a collection of world-class woolen carpets that bear the stamp of the exceptional in every detail: in the unique surface texture, in the quality, in the flexibility, in the design and in the individuality of production and application. A production method, unique in the world and based on embroidery, makes for a striking loop pile texture. The worsted yarn of high-quality pure new wool, the backing of jute and secondary backing of cotton stand for pure nature and maximum durability. In addition, WARON carpets help regulate moisture, are elastic, antistatic and naturally soil resistant. You can have the carpet produced to your individual wishes within the scope of the pattern options. Apart from 72 standard colors, any custom color can be selected for every surface texture quality in any combination. Furthermore, passing single yarns of different colors through the eye of the same needle produces an endless number of shades.

Modellana

MODELLANA products exude a unique feeling of nature. The clever combination of pure new wool, felted yarns and hefty pile weights results in carpets with an exceptional comfort, lasting beauty and great durability. The softness of the periloc-felted pure new wool from New Zealand caresses hands and feet. The fascinating cut pile, frisé and bouclé surface textures have an attractive yet discreet appeal. To ensure that the carpet you desire is fully coordinated with your interior decor, we can produce any special color.

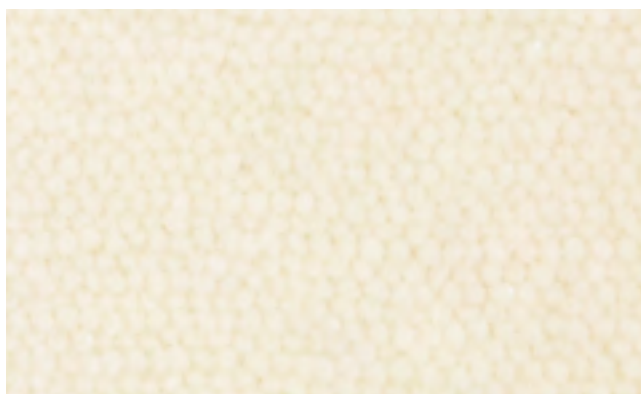

MODELLANA wall-to-wall carpets are produced in widths of up to 44'3" on so-called pass tufting machines to specification. The seamless production eliminates seams and potential weak points. Customisation also eliminates waste pieces, a practical combination of economical and ecological features.
